

The future of yurt windows is here...

Pacific Yurts' Custom Curve™ window system is truly unique in the industry. It features an openable, efficient low-E thermal glass window mounted to a structurally engineered curved frame to match the circular shape of the yurt. This innovative design eliminates the “flat panel” look used by others, and our exclusive fabric flange assures a weather tight seal. Order with a new yurt or retrofit to your existing Pacific Yurt. Customize with your own finishing touches.

Now you can achieve a whole new level of energy efficiency and beauty only available from Pacific Yurts, the industry leader.

Panel and shelving not included

- Strong, engineered design
- Openable from the inside
- Curved frame matches wall
- Low-E thermal glass
- Wide, open view

Available on 20', 24', & 30' yurts only

“We are very happy with the Custom Curve yurt windows. We couldn't be more pleased with the results. Thanks for a great product.” - Judy S., Washington
