Our "Ready-To-Ship" yurts are a semi-customizable yurt solution for our customers who want a 16, 20, 24, or 30 foot diameter yurt but would like to receive their yurt in less time. We accomplish this by maintaining an inventory of our four largest yurt sizes each pre-configured with a standard arrangement of windows and doors in our most popular cover fabrics and colors.

These yurts have already been manufactured with a selection of options, however many of our most popular custom features may still be added (see next page). As a result, you can take advantage of a great discount and receive your yurt right away, while a completely custom yurt in the Spring may require four to six weeks to manufacture. Call today for the best selection.

No One Knows Yurts Like Pacific Yurts!™

"WE LOVE THE YURT!!! Your product has given us the capability of enjoying our property instead of only 'being there' for the first time in the six years that we have owned the acreage. Your support staff is terrific and we are thrilled with our purchase. The packaging was efficient, and your workmanship in the lattice, beams, support ring and other materials is beautiful. Thank you very much." - Susan B., Colorado
