Pricing and Order Booklet

From tropical getaways to Alpine retreats, Pacific Yurts sets the highest standard for successfully adapting a legendary shelter into a modern, flexible, environmentally friendly living structure. Simply put, no one knows yurts like Pacific Yurts. As the original designer and manufacturer of the modern yurt, we have built an over 40-year track record of success and innovation. Our thousands of satisfied customers on nearly every continent are testament to our expertise, proven product performance and commitment to outstanding service.

STANDARD FEATURES - ALL MODELS

LATTICE WALL: Expandable, clear, kiln dried, Douglas fir lath. Finished with a wood penetrating oil: assembled with aluminum rivets. Finished height is approx. 7’.

RAFTERS: High quality, structural grade Douglas fir, sanded and finished with a wood penetrating oil: includes hardened steel pins which fit into holes in center ring.

CENTER RING: Beautiful laminated Douglas fir compression ring finished with a wood penetrating oil: through-bolted for additional strength.

DOOR & FRAME: Beautiful solid wood door with window and inset wood panel, comes pre-hung and includes weather stripping. Solid brass hinges with bronze finish and quality lockset with lifetime warranty.

DOME: Durable, low maintenance, clear acrylic dome. Optional opener available for extra ventilation.

TENSION CABLE: 1/4” aircraft quality galvanized steel, 7,000 lb. breaking strength for 20’, 24’ and 30’ yurts; 3/16” with 4,200 lb. breaking strength for 12’, 14’ and 16’ yurts.

WINDOWS: Two large fabric windows (54”x45”). Clear vinyl, framed in 2” marine grade velcro. Windows open from outside. Includes zippered weather flaps and sewn-in screens.

TOP COVER: This flame retardant vinyl/polyester fabric provides excellent durability, low maintenance and protection from the elements and includes a 10 year warranty. Overhead seams are electronically bonded together instead of being machine sewn and are impervious to moisture. Our optional premium top cover includes a 15 year warranty. Rain diverter included over every door.

SIDE COVER: Side cover is an acrylic coated 100% polyester fabric that provides exceptional strength, durability and low maintenance; easy clip-on design.

DETAILED INSTRUCTIONS for setting up. Suggested platform construction plans included.

**PACIFIC YURT OPTIONS**

**WINDOW AND DOOR PLACEMENT**
The diagram below (using a clock face) represents a door at 6:00. You can choose your own placement or choose from the following placements.

Restrictions on placement: Windows must be placed 18" minimum from doors and 15" minimum from windows. Doors must be placed at quarter hour locations only.

- 2 window placement: 8:00 and 4:00
- 3 window placement: 8:00 and 12:00 and 4:00
- 4 window placement: 7:30, 10:30, 1:30 and 4:30
- 5 window placement: 8:00, 10:00, 12:00, 2:00 and 4:00
- ____________ total windows: Evenly spaced

**OPTION DESCRIPTION**

**Additional Fabric Windows**
Windows can be added to provide additional light and ventilation. They are made of clear vinyl, framed in 2” marine grade velcro and include zippered weather flaps and sewn-in screens. Windows open from outside.

**Window Awning Frame**
Frame consists of an anodized aluminum framework to support the window flap. This creates an overhang allowing the windows to be left open for ventilation.

**Glass Window System**
Energy efficient glass window (48" wide x 39" tall) with fabric flange and curved wood frame, opens from inside. Includes trim kit. Not available on 12’ and 14’ models. Requires additional packing and crating charge.

**Premium Top Cover**
Made of the highest quality roofing material, with a 15 year material manufacturer’s warranty, this top is available in tan, white, gray or dark gray. Not for use with the solar arc.

**Door Awning**
This 5’ x 6’ piece of roofing fabric is welded over the door and has grommets installed along the three outer edges. When supported by a wood frame (not included), it provides a covered porch. Additional sizes are available.

**Insulation**
Our seven layer reflective insulation is covered with an attractive fabric liner facing. Custom designed to match your window and door placement. It works by reflecting radiant heat in both directions, keeping the yurt warmer in the winter and cooler in the summer.

**Insulated Window Covers**
These covers are made of reflective insulation with a fabric liner facing to match the interior insulation. These covers will insulate your windows during the coldest times of the year and are easy to install and remove.

*continued on back page*

**ABOUT SHIPPING**

List prices are FOB - Cottage Grove, Oregon. The National Motor Freight Classification for Yurts is: KD Houses or Buildings NOI - Wood, Item No. 38470 - Sub 2, Class 150. We suggest you call our office for additional shipping information.

**FOR DOMESTIC SHIPMENTS -**
We generally ship **freight collect**. Shipping weights include approximately 200 lb per yurt for packing materials and crates. There is a packing and crating fee of $700 per yurt unless you pick it up at our shop. (Glass Windows - add'l charge)

**FOR INTERNATIONAL CUSTOMERS -**
CIF or other routing quotations will be provided upon request. Packing and crating fees for international freight are $750 per yurt. Please check with your Customs Agent for further information. (Glass Windows - add'l charge)

<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Window Door</strong></td>
<td>Our standard door features a large window (acrylic) for added light. <strong>Panel Door</strong> also available with inset wood panels in the top and bottom, or choose a <strong>Double Window Door</strong> with acrylic windows in the top and bottom panels.</td>
</tr>
<tr>
<td><strong>French Doors</strong></td>
<td>French doors are double doors with the levers in the middle which provide more light, view and a wider opening. Available in wood or fiberglass on 16' or larger yurts.</td>
</tr>
<tr>
<td><strong>Fiberglass Door</strong></td>
<td>Ultra-durable insulated door with large double glazed window. Ideal for low maintenance requirements in the harshest environments.</td>
</tr>
<tr>
<td><strong>Additional Door &amp; Frame</strong></td>
<td>Add a back or side entrance for easy access to decks, hot tub, etc. Available on 16' or larger yurts.</td>
</tr>
<tr>
<td><strong>Screen Door</strong></td>
<td>Beautiful solid wood screen door with self-closing hinges provides extra ventilation while keeping the bugs out.</td>
</tr>
<tr>
<td><strong>Upgrade Hardware for Screen Door</strong></td>
<td>This option upgrades the standard spring-loaded steel screen door hinges to solid brass butt hinges with bronze finish. Also included is a pneumatic door closer.</td>
</tr>
<tr>
<td><strong>Perimeter Blocking</strong></td>
<td>Finished 8’x24” to be cut and installed between vertical supports to meet IBC standards. Includes screws. Available only with Snow and Wind Kit.</td>
</tr>
<tr>
<td><strong>2x6 Rafter/Ring/Hardware Upgrade</strong></td>
<td>This option upgrades the standard rafters, center ring and hardware for increased snow load capacity. Available only with Snow and Wind Kit.</td>
</tr>
<tr>
<td><strong>Central Column</strong></td>
<td>Powder coated steel column increases snow load capacity. Available only with Snow and Wind Kit and 2x6 Rafter Upgrade.</td>
</tr>
<tr>
<td><strong>Tinted Dome</strong></td>
<td>The tinted dome blocks approximately 60% of the heat coming through the skylight, and only marginally affects the natural light. Keeps the yurt cooler in unshaded locations.</td>
</tr>
<tr>
<td><strong>Dome Opener</strong></td>
<td>Opens the dome skylight to allow the escape of hot air or moisture that may get trapped at the ceiling. This creates a natural convection cooling system for refreshing comfort. Includes extension handle.</td>
</tr>
<tr>
<td><strong>Power Dome Opener</strong></td>
<td>Our power dome opener option with keychain remote makes it easy to open or close the dome with the touch of a button.</td>
</tr>
<tr>
<td><strong>Center Ring Insert</strong></td>
<td>Finely crafted wood frame fits into the center ring and includes bug screen or shade screen.</td>
</tr>
<tr>
<td><strong>Dome Screen</strong></td>
<td>Circular hemmed screen attaches to the center ring. Choose bug or shade screen.</td>
</tr>
<tr>
<td><strong>Fan Support</strong></td>
<td>This sculpted wood support fits into the center ring and allows the installation of a ceiling fan for improved air circulation.</td>
</tr>
<tr>
<td><strong>Stove Flashing</strong></td>
<td>Double metal flashing made of galvanized sheet metal that is powder coated for corrosion resistance and beauty. Standard opening is 8” – other sizes are available.</td>
</tr>
<tr>
<td><strong>Cable Tie-Down</strong></td>
<td>The cable tie-down system attaches to the center ring in four locations and secures to a recessed eyebolt in the center of the floor. It can be installed and removed as needed for severe wind conditions. Designed to be used in conjunction with the Snow and Wind Kit as an additional level of protection. $240</td>
</tr>
<tr>
<td><strong>Solar Arc</strong></td>
<td>The solar arc is translucent vinyl roofing fabric integrated into the top cover in an arc shape that allows diffused light into the yurt (see photo in brochure). This option is not recommended for hot unshaded locations or where full insulation is required. It is available on the standard top cover only. Temporarily unavailable.</td>
</tr>
<tr>
<td><strong>Perimeter Gutter System</strong></td>
<td>Similar function to Water Catchment but utilizes rigid PVC and can be retrofit. Comes in approximate 6’ sections. On site assembly required. Available in brown or white. $495 to $1,395</td>
</tr>
<tr>
<td><strong>Tinted Dome</strong></td>
<td>The tinted dome blocks approximately 60% of the heat coming through the skylight, and only marginally affects the natural light. Keeps the yurt cooler in unshaded locations.</td>
</tr>
<tr>
<td><strong>Dome Opener</strong></td>
<td>Opens the dome skylight to allow the escape of hot air or moisture that may get trapped at the ceiling. This creates a natural convection cooling system for refreshing comfort. Includes extension handle.</td>
</tr>
<tr>
<td><strong>Power Dome Opener</strong></td>
<td>Our power dome opener option with keychain remote makes it easy to open or close the dome with the touch of a button.</td>
</tr>
<tr>
<td><strong>Center Ring Insert</strong></td>
<td>Finely crafted wood frame fits into the center ring and includes bug screen or shade screen.</td>
</tr>
<tr>
<td><strong>Dome Screen</strong></td>
<td>Circular hemmed screen attaches to the center ring. Choose bug or shade screen.</td>
</tr>
<tr>
<td><strong>Fan Support</strong></td>
<td>This sculpted wood support fits into the center ring and allows the installation of a ceiling fan for improved air circulation.</td>
</tr>
<tr>
<td><strong>Stove Flashing</strong></td>
<td>Double metal flashing made of galvanized sheet metal that is powder coated for corrosion resistance and beauty. Standard opening is 8” – other sizes are available.</td>
