

Glass Window System

Pacific Yurts' Glass Window System is truly unique. Featuring an openable, efficient low-E thermal glass window, it is mounted to a structurally engineered curved frame to match the circular shape of the yurt.

This innovative design eliminates the "flat panel" look, and our exclusive fabric flange assures a weather tight seal. Order with a new yurt or retrofit to your existing Pacific Yurt. Customize with your own finishing touches.

Now you can achieve a whole new level of energy efficiency and beauty only available from Pacific Yurts, the industry leader.

- Strong, engineered design
- Openable from the inside
- Curved frame matches wall
- Low-E thermal glass
- Wide, open view
- Tan, white, or bronze trim

Not available on 12' and 14' yurts

"The glass window is a fantastic design addition! I love Pacific Yurts even more now and love the way you curved the window frame to make it more visually appealing."

- Lisa M.
