

THE MODERN YURT FITS MODERN LIVING

The sky's the limit when you're designing a modern yurt living space. Today's yurts offer a breathtaking array of design options and amenities for comfortable living. Below are just a few of the possibilities—the rest is up to your imagination.

OPEN FLOOR PLAN

PARTITION WALLS

Interior walls divide the yurt into separate living spaces while providing a place for plumbing and electrical wiring.

KITCHEN & BATHROOM

Installing a kitchen and bathroom on opposite sides of a partition wall helps minimize plumbing required.

STORAGE

Modern yurt designs can include multiple closet spaces for ample storage.

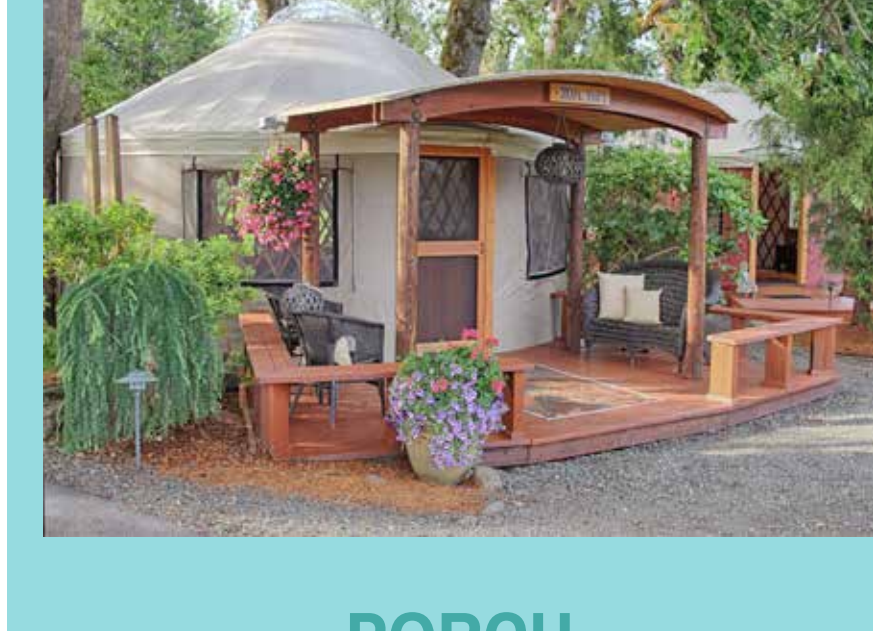

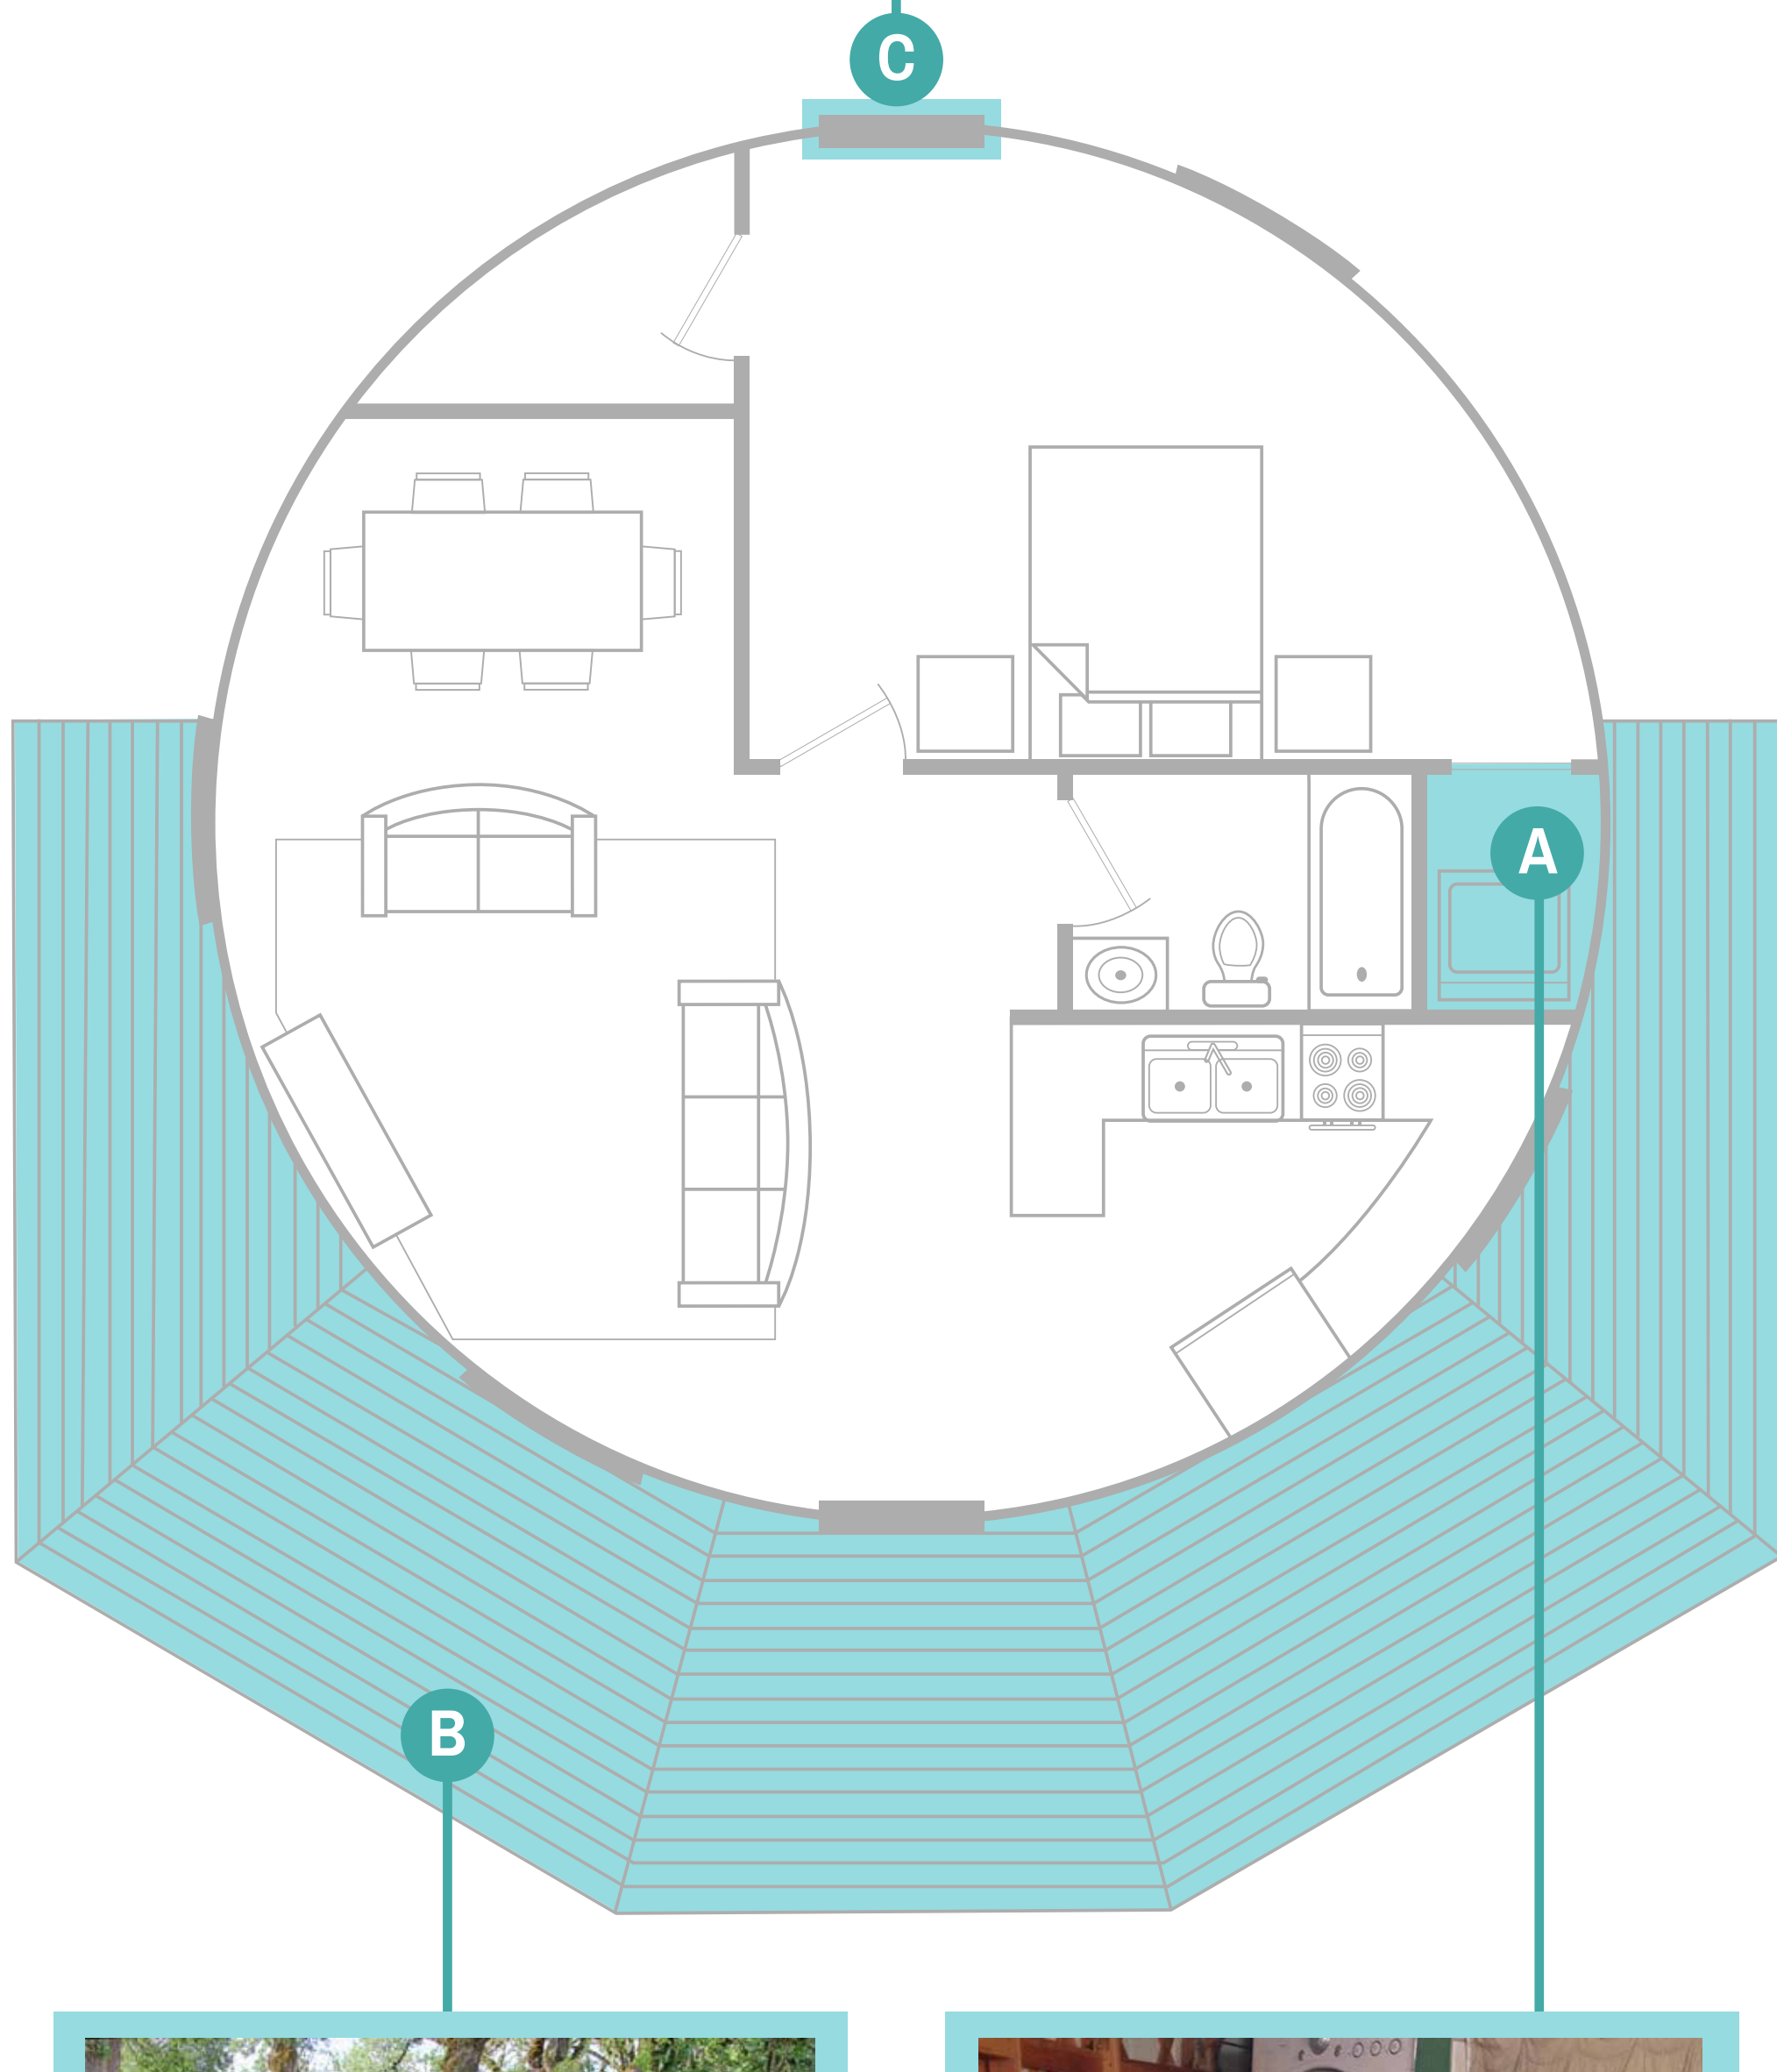

LUXURY LIVING

BACK DOOR

An extra door off the bedroom offers easy access to a deck, hot tub or garden. Door options include:

- Window door
- Screen door
- French doors
- Fiberglass door

PORCH

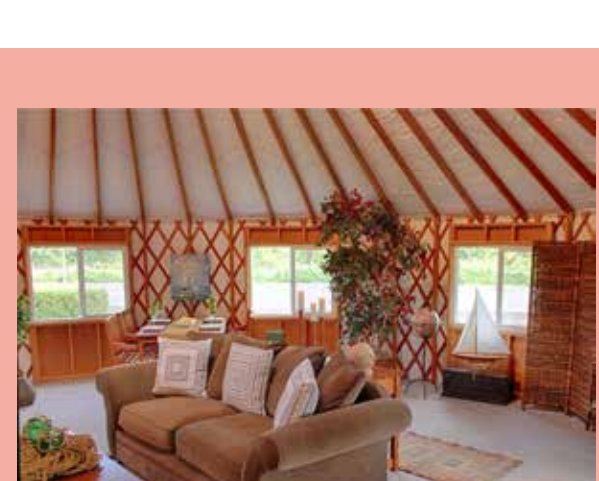

A porch creates outdoor living space and helps frame the entrance to your yurt home.

LAUNDRY ROOM

Modern yurt homes can contain all the appliances you're used to, including a washer and dryer.

MAXIMIZED LIVING SPACE

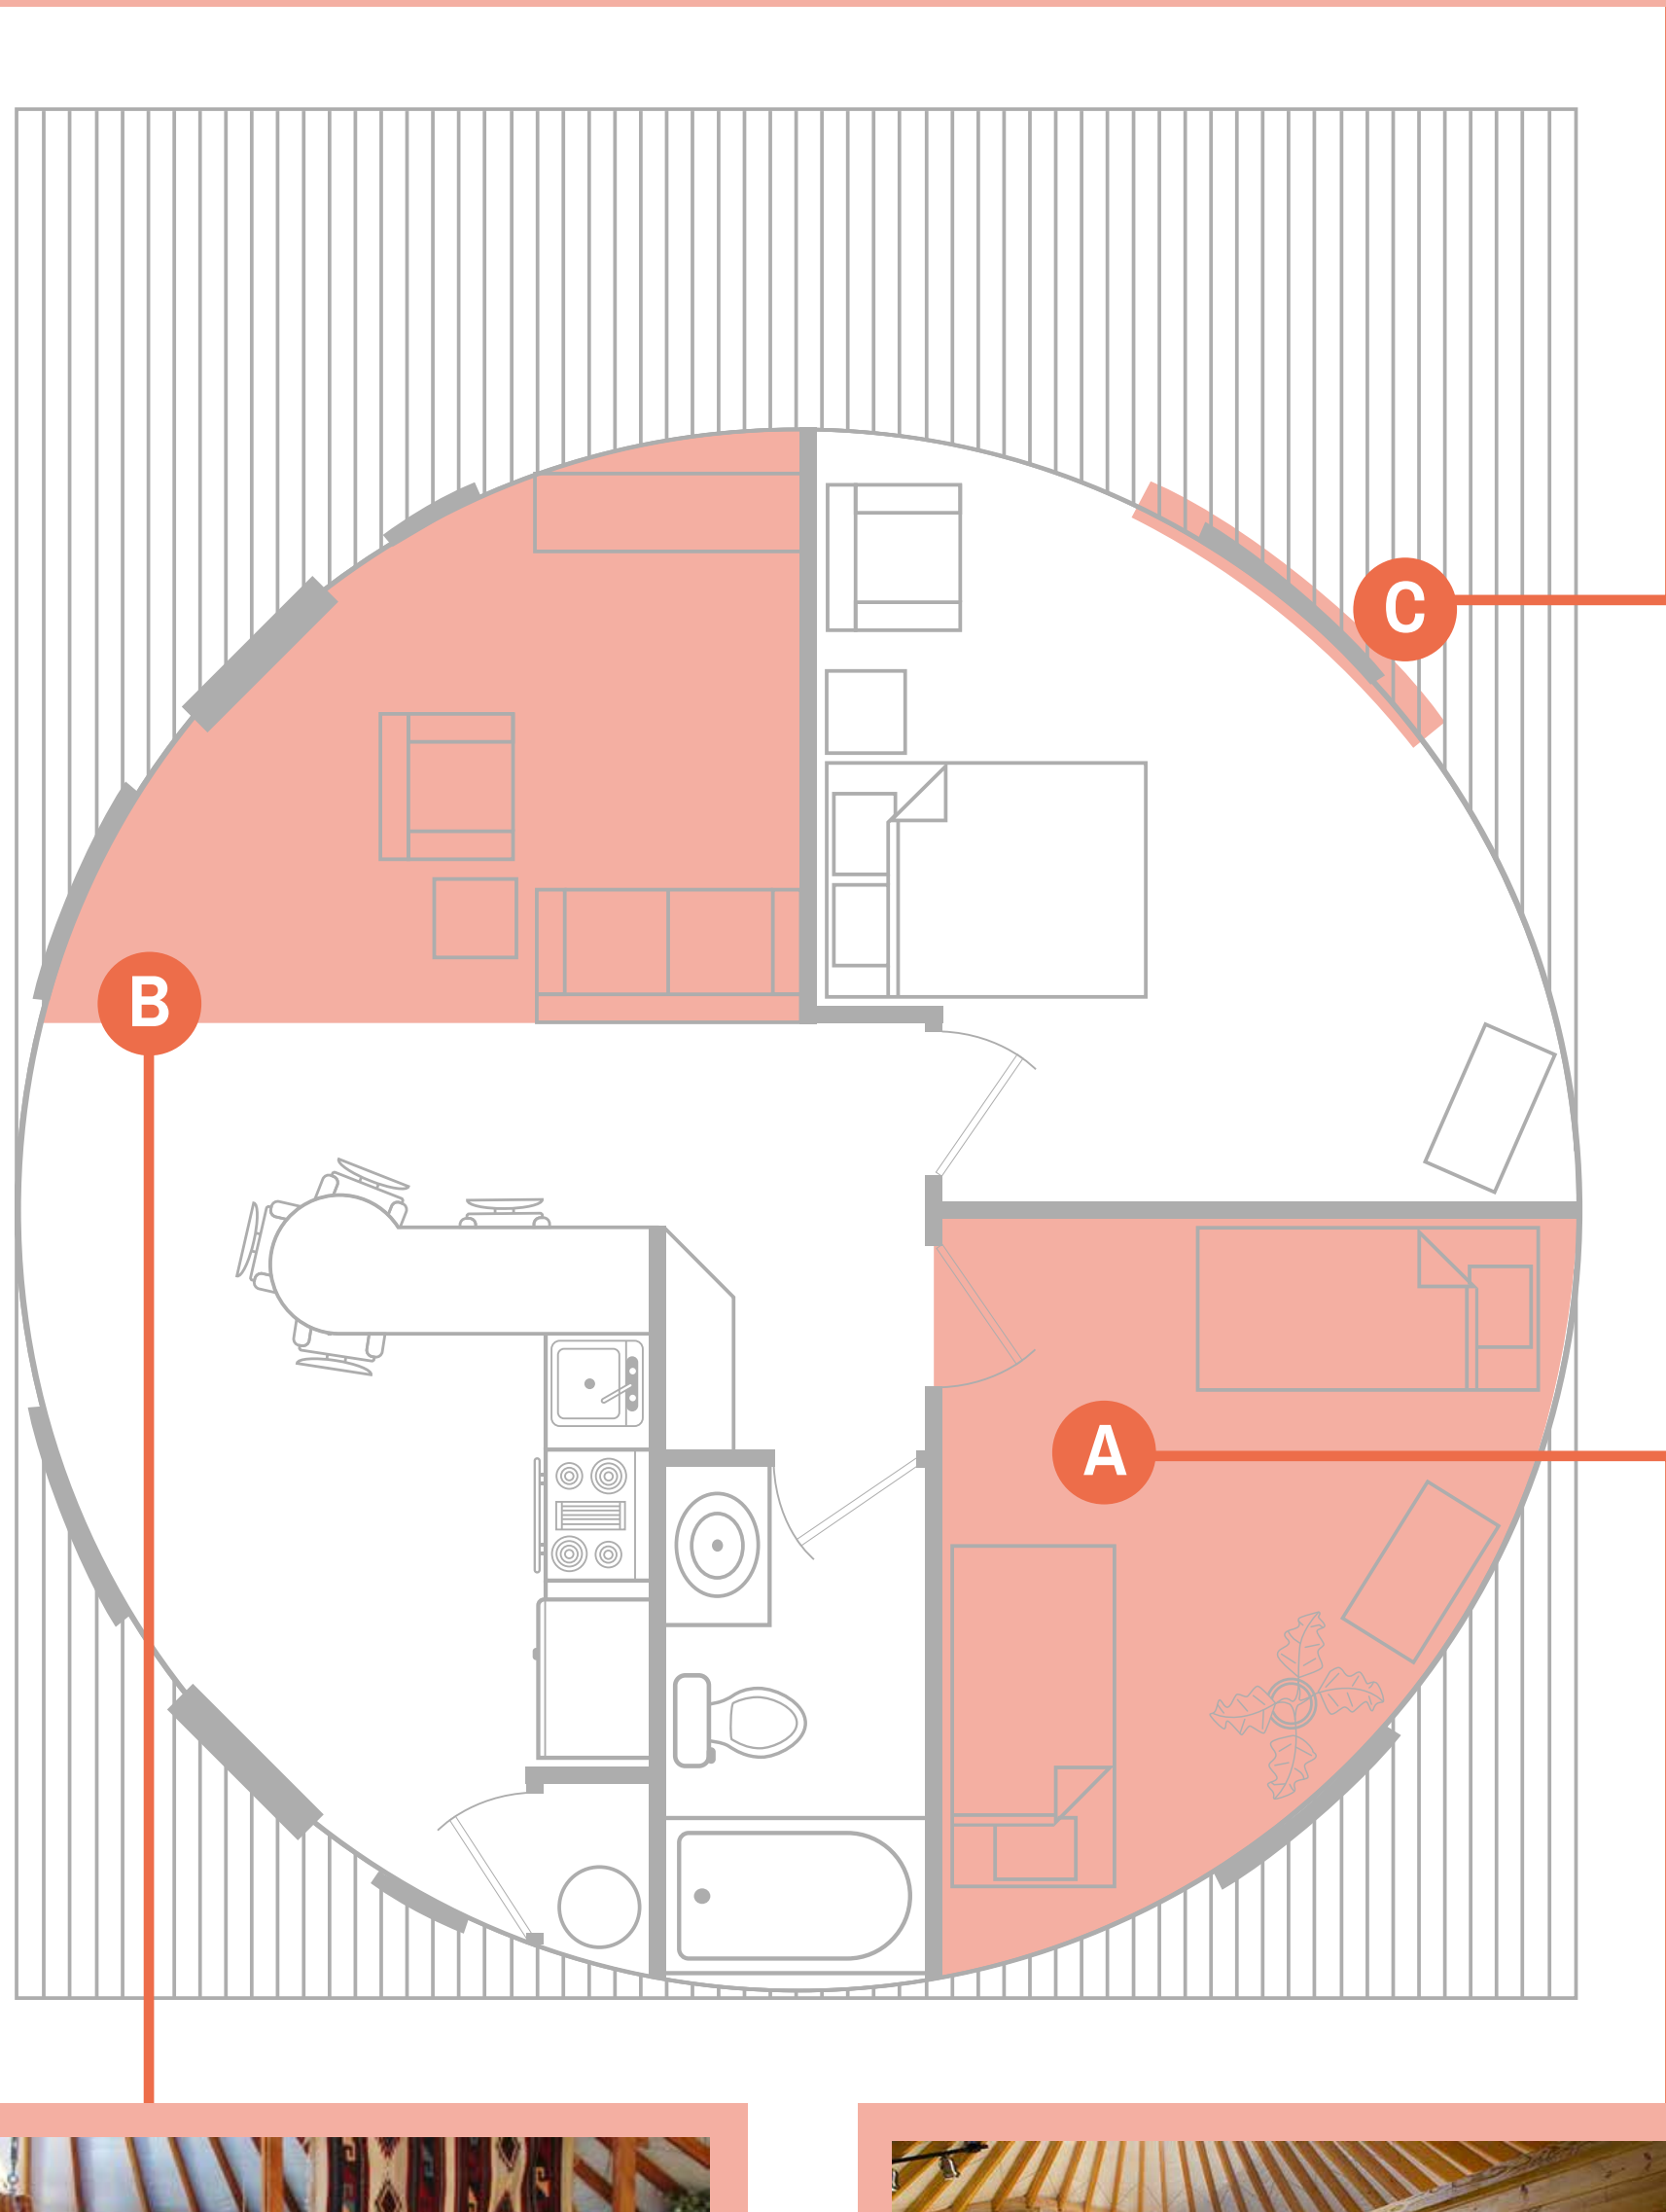

EXTRA WINDOWS

Adding windows allows you to take advantage of natural views while bringing more light into the space.

Window options include:

- Fabric windows
- Window awning frame
- Custom curve glass windows

LOFT

Many yurt homes include a loft to maximize living space. Limiting loft size to a third of the yurt interior helps retain its natural spaciousness.

SECOND BEDROOM

Incorporating an extra room into your yurt design provides space for a guest room, office or studio.
